
Operation Lock Step—The Great Deception that Is the Final Solution

August 18, 2021 Doug

The Rockefeller Foundation—a bastion of Luciferian globalism—published a report in 2010 that discussed a scenario-based research initiative that it had conducted regarding possible future outcomes for planet earth and the humanity that calls it home. In the paper, four scenarios were presented—including the now infamous Lock Step scenario. Despite fervent and cunning attempts to obfuscate the truth, this paper provides a shocking glimpse into the initial blueprint—the seed of conspiracy—that would become, is now becoming, and ultimately will be a critical part of the Great Deception that is the New World Order's Great Reset agenda and their final solution for humanity.

While much of the recent focus has been on the Lock Step scenario, it represents only piece of a far more comprehensive plan. From operation Lock Step to operation Hack Attack, and from operation Hack Attack to operation Clever Together, this paper provides us with an early panoramic view of the Luciferian plan to reimagine, transform, and reset the world.

As such, it represents the final solution—Satan's wickedly evil master plan for the last days, by which the whole world will be deceived (cf. 2 Thessalonians 2:8-12; Revelation 13:8, 12, 14; 18:23; 19:20; 20:3).

Unfortunately, many have exercised an inappropriate degree of creative license in the quest to share the truth. I say "unfortunately" both because it is dishonest (no matter the genuineness of the intent) and because it is *entirely unnecessary*. If you let the document simply speak for itself—without modifying or manipulating the original text, it unambiguously speaks for itself and declares to the world all the world needs to know.

This article is an attempt to reveal that message—*accurately, transparently, and honestly*.

This article is an attempt to warn you regarding the cunning plan—*that you might not be deceived*.

Normal Liver Toxic Liver
DYING LIVER
DO NOT Ignore These Early Warning Signs (#2 is Scary!)

In the end, it's up to you to perform your own due diligence and decide for yourself whether it's all some absurd cosmic coincidence… or, a genuine blueprint—albeit an early-stage rough draft—for a cunning plan that has been brought to maturity and is now being implemented by the global elites on an unsuspecting world.

The Spirit Behind Lock Step—the Global Elite's God Complex

As we noted in our introduction, in 2010, the Rockefeller Foundation, in collaboration with the Global Business Network, published a paper entitled "Scenarios for the Future of Technology and International Development."

We encourage you reference this document—in its original unadulterated form—by clicking the link above.

In the introduction to the paper, Judith Rodin, then president of The Rockefeller Foundation, asserts that the Foundation "supports work that expands opportunity and strengthens **resilience** to *social*, *economic*, *health*, and *environmental* challenges—affirming its pioneering philanthropic mission, since 1913, to **'promote the well-being**' of humanity… [via] a **strategic approach**… which analyzes emerging risks and opportunities and **thinks imaginatively** about how to respond to the complex, rapidly changing world around us… [in a way] that accelerates our **ability to act** more quickly and effectively" (pp. 4-5, emphasis added).

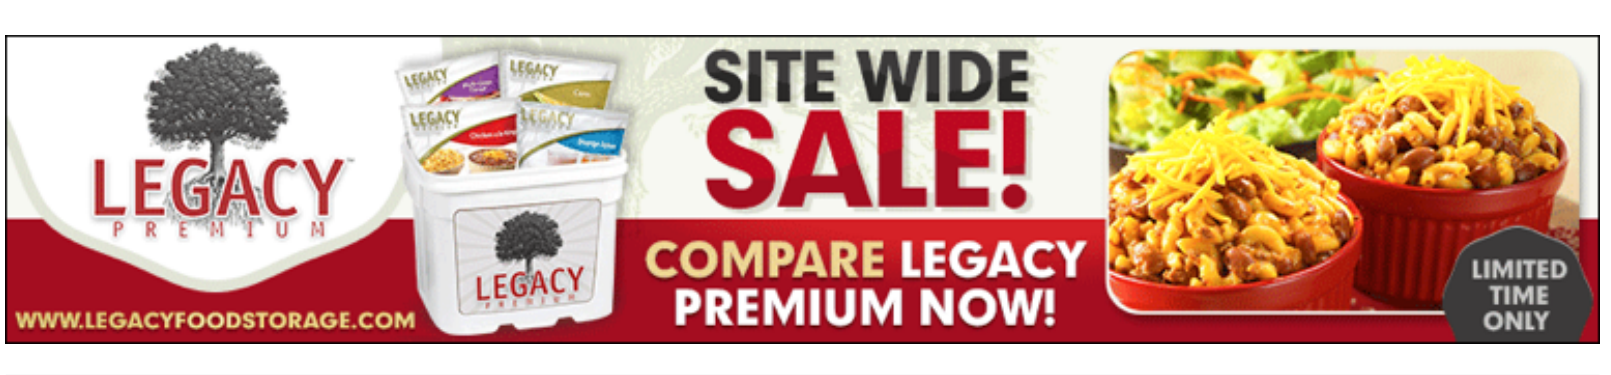
Several points are worth expounding on here.

First, as we work our way through this document, pay close attention to the use of certain key words (e.g., resilience and imagine)—key (code) words that were even in play back in 2010 and which you will hear repeated *ad nauseum* by global elites and new world order organizations, such as the World Economic Forum (WEF), today.

These words provide a linguistic thread that weaves a trail through NWO communications for decades—demonstrating a clear and historical progression (development) of their agenda.

If there is one thing the global elites do extremely well (besides demonstrate tremendous patience in effecting their wicked agenda), it's their dedication to going to absurd lengths to plan every minute step and conceivable variable in excruciating detail!

For example, the WEF boasts that it "has mapped hundreds of global issues and their interdependencies together with experts from universities, think-tanks, international organizations, or other research institutions. The information is presented in the form of an interactive, dynamic data visualization called a 'transformation map,'" such as this one for the Great Reset:



LEGACY PREMIUM SITE WIDE SALE! COMPARE LEGACY PREMIUM NOW! LIMITED TIME ONLY WWW.LEGACYFOODSTORAGE.COM

World Economic Forum Great Reset Transformation Map

The globalists literally leave no stone unturned—and they have been working on their final solution for decades… *if not centuries!*

Secondly, they do not just sit around brainstorming in think tanks for the sake of intellectual exercise.

They analyze and create plans with the expressed purpose of acting (effecting a result or outcome)—and doing so more quickly and effectively.

Third, this exposes the insane level of hubris that exists at their very core—*the god complex*.

Who, pray tell, determines what is or is not in the best interest of said humanity… what does or does not "promote the well-being" of that humanity?

Silly peasant… ***they do** of course!*

Rodin continues, writing, "One important—and novel—component of our strategy toolkit is scenario planning… We believe that scenario planning has great potential for use in philanthropy to **identify unique interventions** [and] simulate and **rehearse important decisions** that could have profound implications… Most important… scenario planning allows us to **achieve impact more effectively**" (p. 4, emphasis added).

Again, despite their claims to the contrary, the paper itself declares that this initiative was conducted with the explicit and intentional purpose of generating a plan (blueprint or framework) that could be utilized to guide actual decision making (like a script) in order to achieve a desired impact or outcome—and to achieve that impact more effectively.

Rodin finishes by affirming that this purpose (viz., achieving an actual, real, and effective impact) is why they "are so excited about the promise of using scenario planning to develop **robust strategies** and offer a refreshing viewpoint on the possibilities that lie ahead" (p. 5, emphasis added).

Again, in their own words, this paper reflects **strategies**—not merely or exclusively "what if" prognostications—to effect (cause) an impact (change) in the future.

Furthermore, in his introduction to the paper, Peter Schwartz, cofounder and chairman of Global Business Network, in verbiage that is remarkably similar to that of Klaus Schwab today, reiterates these themes:

"We are at a moment in history that is full of **opportunity**. Technology is poised to **transform the lives of millions of people throughout the world**… [Our efforts] **will change** not just lives but the very context in which the field of philanthropy operates… [This report seeks] to spur growth, opportunity, and **resilience** especially in the developing world… [and]it will **seed a new strategic conversation** among the key public, private, and philanthropic stakeholders about technology and development at the **policy, program, and human levels**… in order to **imagine** how technology could **actually change the lives of people** from many walks of life. **This is only the start** of an important conversation **that will continue to shape** the potential of technology and international development **going forward**." (pp. 6-7, emphasis added)

Finally, in case things weren't clear enough, the paper goes on to state:

"Scenarios… are thoughtful hypotheses that allow us to **imagine**, and then **to rehearse**, different **strategies** for how to be more prepared for the future—or more ambitiously, **how to help shape better futures ourselves**… Scenarios are a *medium* **through which great change can be not just envisioned but also actualized**" (pp. 9, 12, emphasis added).

The Four Scenarios of the New World Order

The Rockefeller Foundation's report summarized four scenarios: Lock Step, Hack Attack, Smart Scramble, and Clever Together.

Before we look at several of these in more detail, it is important to understand what each means, as well as their relationship to each other.

Lock Step, according to the paper, can be summarized as "a world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen pushback."

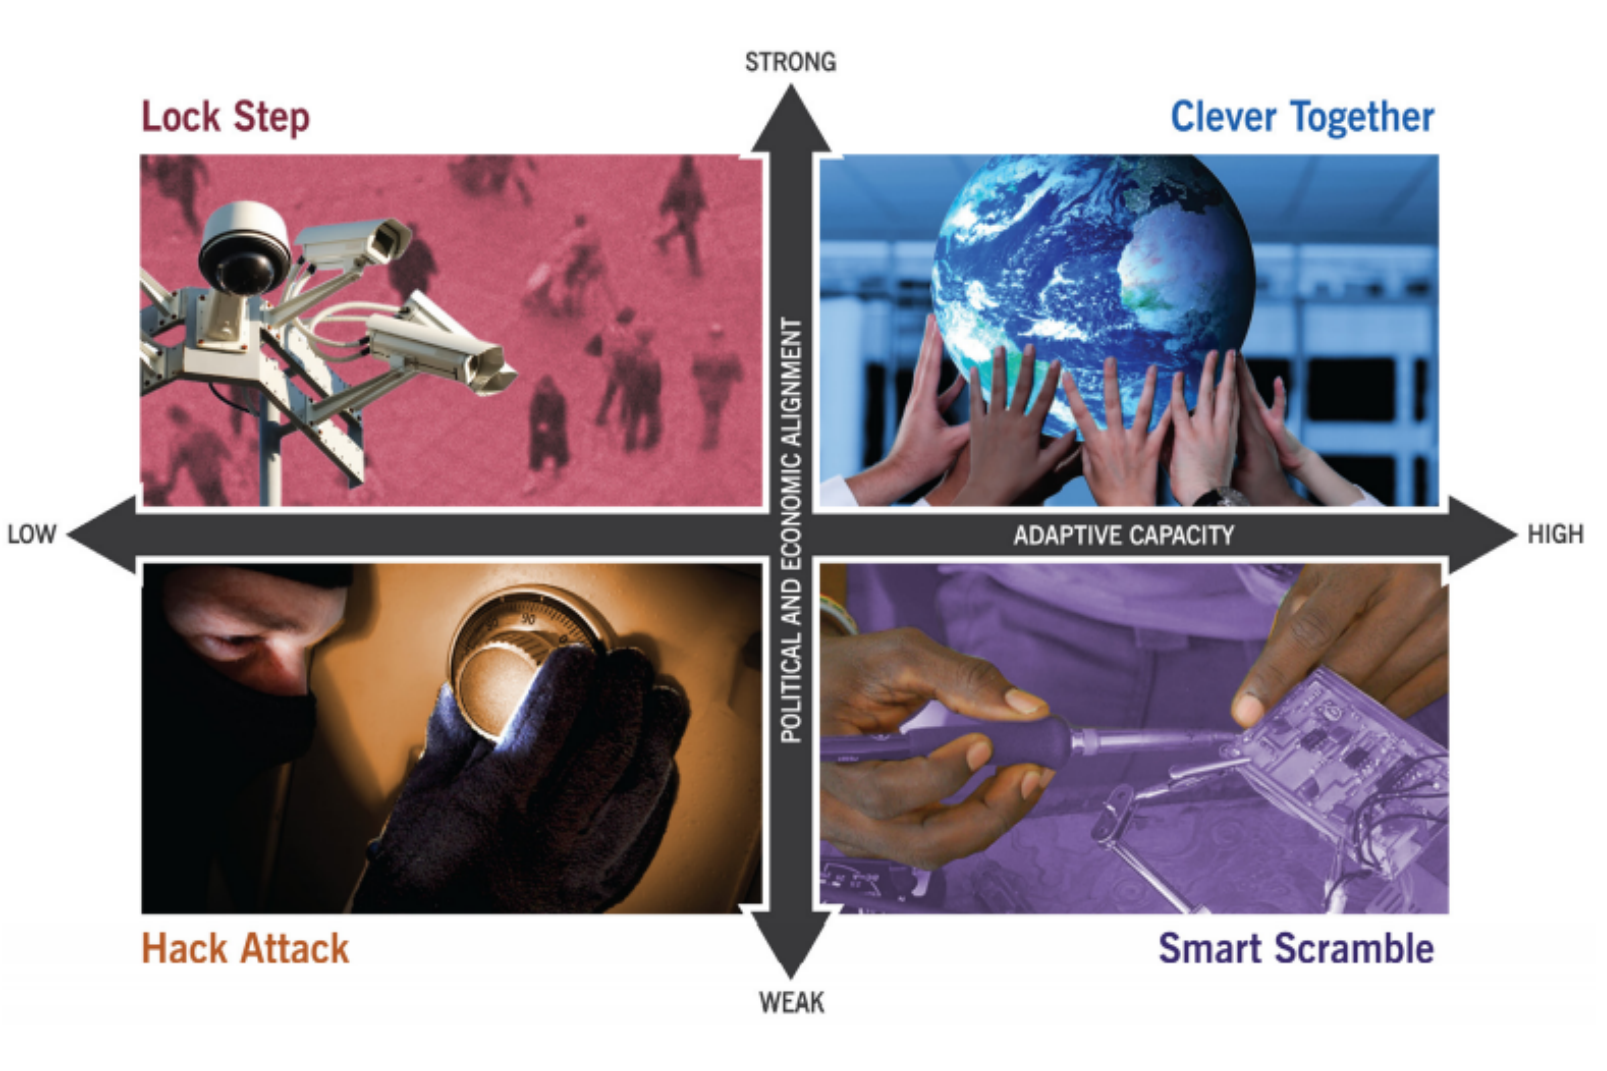
Hack Attack is defined by the paper as "an economically unstable and shock-prone world in which governments weaken, criminals thrive, and dangerous innovations emerge."

Smart Scramble is described by the paper as "an economically depressed world in which individuals and communities develop localized, makeshift solutions to a growing set of problems."

This is a picture of the pre-pandemic world in the eyes of the globalists. As such, we will not be addressing this scenario in this article—it is best viewed as a pre-existing condition rather than a desired future step in the strategic plan of the globalists.

Finally, the paper characterizes **Clever Together** as "a world in which highly coordinated and successful strategies emerge for addressing both urgent and entrenched worldwide issues."

The paper presents these four scenarios as mutually exclusive scenarios representing four quadrants of a matrix:



However, history indicates a different view regarding their relationship is at play.

Rather than being mutually-exclusive, my assertion, which I will attempt to support and defend in this article, is that they actually represent a **progression of stages**—*with transitionary overlap*.

Whether that was always in view by the participants or a realization they came to over the following decade as they refined their strategies to effect their desired changes on humanity and our world is irrelevant. What matters is that this was the ultimate outcome or product of their planning.

My hypothesis is as follows…

They view(ed) the pre-pandemic world as being constrained in a pre-existing and harmful state of "Smart Scramble"—the very antithesis (fractured and siloed nationalism) of the globalists desired outcome.

Their goal is to reach a "Clever Together" state—a global, authoritarian technocracy ruled by the global elite. It is the proverbial holy grail or pot of gold at the end of the rainbow for the New World Order—the great utopian final state of communism that tantalizingly promises social, environmental, religious, and economic resilience and equity on a global scale.

To get there, they will utilize Lock Step (already in progress) and Hack Attack (now beginning to be unveiled) "scenarios" to push humanity from its pre-existing Smart Scramble condition towards their ultimate goal of a re-imagined Clever Together global new world order, replete with "a high degree of international coordination and adaptation."

Thus, operation Lock Step (phase one) and operation Hack Attack (phase two) are a transitory deception—an integral part of the broader Great Deception by which the world will be deceived into embracing the coming one-world government, currency, economy, and religion… led by the Antichrist and False Prophet… and empowered by Lucifer himself.

It is Satan's final solution.

To learn more about another critical component of the Great Deception, we recommend checking out our articles Alien Deception & Great Awakening—Expect More UFO Disclosures? and The Great Alien Deception—Is World Being Conditioned for Rapture?

Having established the framework, let's examine three of the scenarios (operations): Lock Step, Hack Attack, and Clever Together to evaluate whether they support my hypothesis or strengthen the case that it's all just a tin-foil hat conspiracy theory predicated on a random set of events representing nothing but a ridiculous degree of cosmic coincidence…

Operation Lock Step: Phase One of the Final Solution

Let's begin by examining the **Lock Step scenario**—the first phase of the unfolding New World Order plan for achieving the Great Reset agenda.

The paper begins describing the scenario by stating, "**[T]he pandemic** that the world had been anticipating for years **finally hit**… Even the most pandemic-prepared nations were **quickly overwhelmed** when **the virus streaked around the world**" (p. 18, emphasis added).

Status: *Happened precisely as planned*

The report continues, noting that "the pandemic also had a **deadly effect on economies**: **international mobility of both people and goods screeched to a halt**, **debilitating industries like tourism and breaking global supply chains**. Even locally, normally bustling shops and office buildings **sat empty for months**, **devoid of both employees and customers**" (p. 18, emphasis added).

Status: *Happened precisely as planned*

Next, the scenario (operation) records that "the pandemic **blanketed the planet**… [and] **spread like wildfire** in the **absence of official containment protocols**. But even in developed countries, containment was a challenge. The **United States' initial policy of 'strongly discouraging' citizens from flying proved deadly in its leniency**, **accelerating the spread of the virus not just within the U.S. but across borders**" (p. 18, emphasis added).

Status: *Happened precisely as planned*

Normal Liver Toxic Liver
DYING LIVER
DO NOT Ignore These Early Warning Signs (#2 is Scary!)

The paper then notes, "However, a few countries did fare better—**China** in particular. The **Chinese government's quick imposition and enforcement of mandatory quarantine for all citizens**, as well as its **instant and near-hermetic sealing off of all borders**, saved millions of lives, stopping the spread of the virus far earlier than in other countries…" (p. 18, emphasis added).

Status: *Happened precisely as planned*

As if gazing into a crystal ball, the report states that "**China's government** was not the only one that took **extreme measures to protect its citizens from risk and exposure**. During the pandemic, **national leaders around the world flexed their authority and imposed airtight rules and restrictions**, from the **mandatory wearing of face masks** to **body-temperature checks at the entries to communal spaces** like train stations and supermarkets" (p. 19, emphasis added).

Status: *Happened precisely as planned*

Still not finished, the "scenario" continues, "Even after the pandemic faded, **this more authoritarian control and oversight of citizens and their activities stuck and even intensified**. In order to **protect themselves** from the spread of increasingly global problems—from pandemics and transnational terrorism to environmental crises and rising poverty—**leaders around the world took a firmer grip on power**" (p. 19, emphasis added).

Status: *Happening now… precisely as planned*

What was the result?

The paper indicates that, "at first, the notion of a more controlled world **gained wide acceptance and approval**. **Citizens willingly gave up some of their sovereignty—and their privacy**—to more paternalistic states **in exchange for greater safety and stability**" (p. 19, emphasis added).

Status: *Happening now… precisely as planned*

The report continues, adding, "Citizens were **more tolerant**, and **even eager**, for **top-down direction** and **oversight**, and **national leaders had more latitude to impose order** in the ways **they saw fit**" (p. 19, emphasis added).

Status: *Happening now… precisely as planned*

The paper describes these methods of direction and oversight, noting that "this heightened oversight took many forms: **biometric IDs** [beginning with digital passports] for all citizens, for example, and **tighter regulation** of key industries whose stability was deemed vital to national interests. In many developed countries, **enforced cooperation** with **a suite of new regulations and agreements** slowly but steadily **restored** both **order** and, importantly, **economic growth**" (p. 19, emphasis added).

Status: *Happening now… precisely as planned*

We go into more detail regarding the coming biometrics, passports, and enforced (coerced) cooperation in our articles Vaccine Passports & Refuseniks: The Writing is On the Wall, Did CDC Just Signal Green Zone (Isolation) Camps are Coming to US, and Mandatory COVID Vaccinations or Compliance by Coercive Manipulation?

We also highly encourage you to read our article Pharmaceuticals—The Great Sorcery Deception of the Beast.

SITE WIDE SALE! LEGACY PREMIUM COMPARE LEGACY PREMIUM NOW! LIMITED TIME ONLY WWW.LEGACYFOODSTORAGE.COM

The scenario covering operation Lock Step concludes by discussing the ongoing ramifications:

"Technological innovation in 'Lock Step' is **largely driven by government** and is **focused on issues of national security and health and safety**… [including] **scanners** using advanced functional magnetic resonance imaging (fMRI) technology become the norm at airports and other public areas to **detect abnormal behavior that may indicate 'antisocial intent'** [and], driven by protectionism and national security concerns, nations create their own **independent, regionally defined IT networks, mimicking China's firewalls**. Governments have varying degrees of success in **policing internet traffic**, but these efforts nevertheless **fracture the 'World Wide' Web**" (p. 23, emphasis added).

Status: *Happening now… precisely as planned*

All of these facets of the Lock Step "scenario" have or are occurring around the world today.

In fact, not a single item described in the report has failed to come to fruition or at least started to take place.

Again, you have to ask yourself: *Were they just really, really good prognosticators… or was this the nascent blueprint—the seed of conspiracy—for phase one of their final solution?*

Is the stunningly precise fulfillment of the elements of this "scenario" all just a case of astronomically improbable coincidences… or a carefully and cunningly orchestrated string of planned events?

You be the judge.

But things don't end there. It gets even crazier!

Let's take a look at the Hack Attack scenario—a supposedly mutually-exclusive environment…

Operation Hack Attack: Phase Two of the Final Solution

Having addressed the Lock Step scenario (phase one), let's turn our attention to the **Hack Attack scenario**—*phase two of the broader new world order plan to reset the world and implement their final solution*.

While there is overlap between this phase and operation Lock Step, it is phase one that sets the stage for the Hack Attack scenario—triggering the "stress" needed to enable the plan to continue being implemented.

The report introduces the Hack Attack "scenario" by writing, **"[A]synchronous catastrophes** [e.g., wildfires, earthquakes, flooding, droughts, storms, geopolitical disasters, etc.]… put enormous pressure on an already **overstressed global economy**… Massive humanitarian relief efforts cost vast sums of money, but the primary sources—from aid agencies to developed-world governments—had run out of funds to offer. Most nation-states **could no longer afford their locked-in costs, let alone respond to increased citizen demands for more security, more healthcare coverage, more social programs and services, and more infrastructure repair**" (p. 34, emphasis added).

Status: *Happening now… precisely as planned*

It is worth noting that this was always the foundation of their financial/economic plan to collapse Western economies—opening the door for a global solution.

The paper continues by noting that "these dire circumstances forced tough tradeoffs… the U.S. **reallocated** a large share of its defense **spending** to **domestic concerns**, **pulling out of Afghanistan**—where the resurgent **Taliban seized power once again**" (p. 34, emphasis added).

Status: *Happening now… precisely as planned*

It is almost hard to fathom just how precisely their plan is being carried out—*these events in Afghanistan are literally taking place right now as a write this article*.

What's next according to the Hack Attack "scenario"?

The report then predicts that "in Europe, Asia, South America, and Africa, more and more nation states **lost control of their public finances**, along with the **capacity to help their citizens** and **retain stability and order**. **Resource scarcities** and **trade disputes**, together with **severe economic and climate stresses**, **pushed many alliances and partnerships to the breaking point**; they also sparked **proxy wars** and **low-level conflict** in resource-rich parts of the developing world" (pp. 34-35, emphasis added).

Status: *Happening now… precisely as planned*

Next, the writers note that "Nations **raised trade barriers** in order to **protect their domestic sectors** against imports and—in the face of global food and resource shortages—to **reduce exports of agricultural produce and other commodities**" (p. 35, emphasis added).

Status: *Happening now… precisely as planned*

We revealed more about the unfolding agricultural angle of the plan—including the growing number of nations reducing their agricultural exports—in our article Food Shortages Coming—NWO Great Food Supply Reset Is Here. To learn more, we encourage you to check it out.

But that's just the beginning. The paper continues, asserting, "With **government power weakened**, **order rapidly disintegrating**, and **safety nets evaporating**, **violence and crime grew more rampant**. Countries with ethnic, religious, or class divisions saw especially **sharp spikes in hostility**" (p. 35, emphasis added).

Normal Liver Toxic Liver
DYING LIVER
DO NOT Ignore These Early Warning Signs (#2 is Scary!)

Status: *Happening now… precisely as planned*

We are seeing this transpire around the globe, including South Africa, the Middle East, Eastern Europe, Western Europe, and the United States.

Ethnic, religious, class, and cultural divisions are igniting violent clashes around the world—one of the globalists' *modus operandi* for effecting "hope and change." Remember, with Marxism, all change—even if accomplished through violence and bloodshed—is good and produces incremental progress towards the ultimate goal.

The report continues, noting that "**overtaxed militaries and police forces** [*especially defunded ones!*] could do little to stop **growing communities of criminals and terrorists from gaining power**. **Technology-enabled** gangs and networked criminal enterprises **exploited both the weakness of states and the desperation of individuals** [i.e., cyberattacks and cybercrime]" (p. 35, emphasis added).

Status: *Happening now… precisely as planned*

Next, the paper predicts that, "In the context of weak health systems, corruption, and inattention to standards—either **within countries** or **from global bodies like the World Health Organization**—**tainted vaccines** entered the public health systems of several African countries… which paled in comparison to the scandal sparked by mass deaths from a tainted anti-malarial drug years later. **The deaths and resulting scandals sharply affected public confidence in vaccine delivery**" (p. 35, emphasis added).

Much of this is already happening; however, the specter of "tainted" vaccines and drugs is one of the only details yet to come to fruition… *I would be on the lookout for this!*

Status: *Most happening now… final details coming soon as planned?*

The writers then focus back on the cyber element, writing, "Meanwhile, more sophisticated hackers attempted to **take down corporations, government systems, and banks** via **phishing scams** and **database information heists**, and their many successes **generated billions of dollars in losses**" (p. 36, emphasis added).

Status: *Happening now… precisely as planned*

Continuing, the report posits that "blockbuster pharmaceuticals quickly became artifacts of the past, replaced by increased production of generics. Breakthrough innovations still happened in various industries, but they were focused more on technologies that **could not be easily replicated or re-engineered** [viz., mRNA vaccines]. And once created, they were **vigorously guarded by their inventors**—or even **by their nations** [like mRNA patents]" (p. 36, emphasis added).

This is precisely what we have witnessed with the mRNA technology and patents—with companies like Moderna and players like Bill Gates seeking to fiercely guard the patents from the rest of the world.

Note, this is not about a normative judgment regarding whether that is right or wrong, ethical or unethical. Rather, this is merely to point out that it is happening—exactly as the globalist "scenario" predicted it would back in 2010 (long before most had ever heard of mRNA gene therapy or biotech startups like Moderna).

Status: *Happening now… precisely as planned*

Why would this be important to the plan?

Because it plays right into the "we need a global solution" deception—generating yet another subtle nudge in the desired direction.

Moving right along, the paper continues, noting that "[t]he positive effects of the **mobile and internet revolutions** were tempered by their **increasing fragility** as scamming and viruses proliferated, preventing these networks from achieving the reliability required to become the backbone of developing economies—**or a source of trustworthy information for anybody**" (p. 37, emphasis added).

Status: *Happening now… precisely as planned*

Furthermore, the paper states that, "echoing the rise of synthetic chemicals in the nineteenth century, **synthetic biology**, often state-funded, is used to **'grow' resources and foodstuffs** that have become scarce [e.g., artificial lab-grown meats]" (p. 39, emphasis added).

Status: *Happening now… precisely as planned*

Finally, the Hack Attack "scenario" suggests that "**identity-verification technologies** become a staple of daily life" (p. 39, emphasis added).

Status: *Happening now… precisely as planned*

With the exception of "tainted" vaccines and drugs, all of the details revealed in the Hack Attack "scenario" are currently happening in the world today.

Again, you have to ask yourself: *Were they just really, really good prognosticators… or was this the nascent blueprint—the seed of conspiracy—for phase one of their final solution?*

Is the stunningly precise fulfillment of the elements of this "scenario" all just a case of astronomically improbable coincidences… or a carefully and cunningly orchestrated string of planned events?

You be the judge.

But what's next? Where are we headed—or being cunningly guided towards by the globalist plan?

Let's finish up by taking a quick look at the Clever Together scenario—the final phase and final solution…

The Clever Together Scenario: Phase Three & Endgame of the Final Solution

Finally, let's look at the Clever Together scenario, which represents the third phase and ultimate endgame of the globalist final solution—the utopian end (steady or eternal) state of communism and the Marxist process of change.

During the transitionary period—encompassing phase one (Lock Step) and phase two (Hack Attack), what Marx referred to as dictatorship of the proletariat, and culminating in phase three (Clever Together)—"Capitalist economic relationships [will] gradually be abolished and replaced with socialism. Natural resources [will] become public property, while all manufacturing centers and workplaces [will] become socially owned and democratically managed. Production [will] be organized by scientific assessment and planning… The development of the productive forces [will] lead to the marginalization of human labor to the highest possible extent, to be gradually replaced by automated labor [i.e., the fourth industrial revolution or the great transhumanist reset]."

Regarding this final phase (the endgame of the NWO plan), the report describes the Clever Together scenario as "a world in which **highly coordinated and successful strategies emerge** for addressing both urgent and entrenched **worldwide issues**" (p. 26, emphasis added).

The paper continues, noting that "in such an interconnected world, where the behaviors of one country, company, or individual had potentially high-impact effects on all others, **piecemeal attempts by one nation here, one small collective of environmental organizations there, would not be enough** to stave off a climate disaster—or, for that matter, to effectively address a host of other planetary-scale problems. But **highly coordinated worldwide strategies** for addressing such urgent issues just might. What was needed was **systems thinking—and systems acting—on a global scale**" (p. 27, emphasis added).

Notice the strikingly similar message delivered by Klaus Schwab, the Founder and Executive Chairman of the World Economic Forum, in 2020:

"To achieve a **better outcome**, the world must **act jointly and swiftly to revamp all aspects of our societies and economies**… In short, we need a **'Great Reset**' of capitalism… **Incremental measures and *ad hoc* fixes will not suffice to prevent this scenario**. We must build **entirely new foundations for our economic and social systems**… the pandemic represents a rare but narrow **window of opportunity** to **reflect, reimagine, and reset** our world to create a **healthier, more equitable, and more prosperous future**" (emphasis added).

Next, the writers suggest that "**international coordination** started slowly, then **accelerated faster than anyone had imagined**" (p. 27, emphasis added).

Normal Liver Toxic Liver
DYING LIVER
DO NOT Ignore These Early Warning Signs (#2 is Scary!)

The report posits that "**new globally coordinated systems**… were rolled out… Inspired by the success of this experiment in **collective global action**, **large-scale coordinated initiatives intensified**. **Centralized global oversight** and **governance structures** sprang up" (p. 27, emphasis added).

Finally, the paper adds that "**enormous**, ***benign* 'sousveillance' systems** allowed citizens to **access data—all publically available—in real time and react. Nation-states lost some of their power and importance** as **global architecture strengthened** and **regional governance structures emerged. International oversight entities** like **the UN** took on **new levels of authority**" (pp. 27-28, emphasis added).

To truly understand the glorious utopian world that they believe they can create, I highly encourage you read their audacious description of that world (pp. 28-29). Though to lengthy to include here, the picture of heaven on earth that they paint reveals the depth of the delusional god-complex they suffer from.

Unfortunately, it's a **lie** folks.

A global surveillance state is coming… *but it won't be "benign!"*

And the plan they are conspiring to now carrying out—the seeds of which are contained in this report—is one big deception.

The true outcome will be the grand-daddy of all "bait and switch" scams the world has ever seen—authored by the father of lies himself… *Satan*.

It will usher in a global totalitarian technocracy… *a literal hell on earth like has never been experienced before* (cf. Matthew 24:21).

Conclusion

The Rockefeller Foundation's 2010 initiative was originally presented as four mutually exclusive outcomes. However, it appears the globalists quickly realized that these scenarios—specifically Lock Step and Hack Attack—could actually serve as a series of strategies by which they could push the world (effect a change) towards their desired outcome… the Clever Together scenario.

The carefully guided evolution of this plan continued unabated over the next decade, including many other scenario-based planning events like the 2013 Global Health Summit in Beijing, China (part of a series of events hosted by the Rockefeller Foundation), the World Economic Forum's Cyber Polygon 2021, and Event 201 in the Fall of 2019 (hosted by the Bill & Melinda Gates Foundation)—the final preparation/rehearsal for the launch of phase one (Lock Step).

It is critical to understand that Lock Step is not distinct from Clever Together but, rather, an intended evolution of it. In reality, **Clever Together IS Operation Lock Step**—*just on a global scale rather than on a national level*.

Lock Step and Hack Attack are interconnected and interdependent pathways—required steps on the globalist path to achieving the final destruction of nationalism and the ushering in of the glorious final state—Clever Together.

They fully understand—and are counting on—folks becoming so frustrated, angry, and disillusioned with their national governments, leaders, and authorities as a result of operation Lock Step and Hack Attack that they will abandon their prior objections to and eagerly embrace a "benevolent" global government that claims to truly care about them and promises to provide them with peace, security, and equity.

That was the lesson they learned from this project.

Lock Step would work to increase (ratchet-up) their power and control. However, it would only work for so long (cf. page 21). It was not an endgame (it was never intended to be one) but, rather, an intermediate step along the globalists' well-designed path to the final solution—*the global new world order*.

It is all one big plan—*a multifaceted approach to achieving the Great Reset*.

It is a classic example of the Hegelian dialectic.

The global elites had the solution (Lock Step) for the problem (Covid) that they introduced—*before they ever unleashed it*.

Now, they are providing the solution (Hack Attack) for the problem (security) that they themselves created.

But each of these, in and of themselves, were just intermediate dialectic steps. Lock Step and Hack Attack will become the next problem for which they will provide their already prepared solution (Clever Together)—*a globalized government, currency, economy, and religion*.

For more on the emerging one-world religion, we encourage you to read our articles:

- Woke—Exposing the False Gospel of Pope Francis
- Mystery Babylon—One-World Great Harlot Religion Arising
- Deep Church Exposed: Viganò Reveals Truth about Roman Catholic Church
- The Omega Point: Teilhard de Chardin & the False Doctrine of Pope Francis
- Wokeness—Rebirth of Global Babylonian False Religious System

It's a classic case of misdirection and sleight of hand. By staying one step ahead, folks never see what's coming… the next hammer (or so-called solution) to drop on them.

You have to step back and understand the plan in its entirety. Only then can you get ahead of the proverbial curve and understand where the world is ultimately being led.

To learn more about the big picture, we encourage you to read our articles WEF Great Reset—A Glimpse into the New World Order Psyche and New World Order Emerging: Not Such a Crazy Conspiracy Theory After All!

However, that which they foresee as the glorious final solution to save humanity will only produce a worse outcome for the world—a global totalitarian technocracy… *Lock Step on steroids*.

But unfortunately, just as people embraced operation Lock Step and the interventions to deal with Hack Attack in the name of peace and safety… *they will embrace Clever Together in hopes of finally obtaining that ever-elusive peace and security they so desire*.

Sadly, they will be only be deceived and disappointed… *but by then it will be too late*.

What Does Operation Lock Step, Hack Attack & Clever Together Mean for Us?

What's the takeaway? What does operation Lock Step, Hack Attack, and Clever Together mean for you and me?

There are two critical points that I hope you take away from reading this article.

First, you need to understand that **there IS a plan**… *there is a* ***conspiracy***.

Conspiracies have been a common and very real thing throughout human history. In fact, Scripture repeatedly reveals historical conspiracies (cf. 2 Samuel 15:12; 2 Kings 12:20; 14:19; 15:15; 15:30; 17:4; 2 Chronicles 25:27; Jeremiah 11:9; and Ezekiel 22:25).

Furthermore, God reveals that men do conspire to imagine and effect their evil plans:

"He frustrates the **devices** of the **crafty**, so that their hands cannot carry out their **plans**. He catches the wise in their own **craftiness**: And the counsel of the cunning comes quickly upon them … Behold, I know your thoughts, and the **devices** which ye **wrongfully *imagine* against me**" (Job 5:12-13, 21:27).

The Hebrew word "device" (*machashebeth*) here conveys the meaning of an evil or wicked plan, design, scheme, plot, intent, or purpose.

The word "crafty" means shrewd, sly, or cunning—the same word (*aram*) used to describe the serpent in the Garden (cf. Genesis 3:1).

It is also worth pointing out that God uses the word "imagine" here—the very same word the globalists (e.g., Judith Rodin, Peter Schwartz, and Klaus Schwab) repeatedly use regarding their devices for the Great Reset… regarding our need to seize the so-called golden opportunity to "reimagine our world" (of course, to reimagine it without and *against* God).

However, second, you absolutely need to understand that—at its heart (core)—**it is a spiritual conspiracy**.

Everything we've discussed regarding the new world order agenda is **just the physical manifestations of a broader spiritual battle**—*Satan's plan to reign over planet earth as the king of his own fallen kingdom.*

To learn more about his counterfeit of God's plan, checkout our article Woke—Exposing the False Gospel of Pope Francis).

These modern-day globalist conspirators—like those before them—are simply doing the deeds of their father.

As Jesus said to the conspirators of His day, "Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning, and abode not in the truth, because there is no truth in him. When he speaketh a lie, he speaketh of his own: for he is a liar, and the father of it" (John 8:44).

And just like their father Lucifer, they masquerade as ministers of righteousness… *deceiving the world*.

As Paul warned, "Satan himself is transformed into an angel of light. Therefore, it is no great thing if **his ministers also be transformed as the ministers of righteousness**; whose end shall be according to their works" (2 Corinthians 11:13-15).

And Satan and his ministers are always conspiring—always involved in planning, plotting, scheming, and conspiring to achieve his wicked goals, intents, and purposes for the world:

"Lest Satan should get an advantage of us: for we are not ignorant of his devices [*noéma*: plans, designs, schemes, plots, intents, purposes]" (2 Corinthians 2:11).

Furthermore, Scripture declares that Satan will use his devices to deceive the whole world in the last days:

"And He laid hold on the dragon, that old serpent, which is the Devil, and Satan, and bound him a thousand years, and cast him into the bottomless pit, and shut him up, and set a seal upon him, **that he should deceive the nations no more**, till the thousand years should be fulfilled: and after that he must be loosed a little season" (Revelation 20:2-3).

John reveals that the Antichrist himself—the coming global leader who will control the Clever Together world with an iron fist—will receive his power from Satan: "And the beast which I saw was like unto a leopard, and his feet were as the feet of a bear, and his mouth as the mouth of a lion: **and the dragon gave him his power, and his seat, and great authority**" (Revelation 13:2).

This Antichrist will also deceive the whole world: "And **all the world** *wondered after the beast*. And they worshipped the dragon which gave power unto the beast: and they *worshipped the beast*, saying, Who is like unto the beast? who is able to make war with him?" (Revelation 13:3-4)

The False Prophet—the Antichrist's religious sidekick—will deceive the whole world: "And he doeth great wonders… And **deceiveth them that dwell on the earth**" (Revelation 13:13-14).

Furthermore, Satan's merchants have, are, and will deceive the whole world: "For thy merchants were the great men of the earth; for by thy sorceries **were all nations deceived**" (Revelation 18:23).

This reveals two unambiguous and undeniable truths.

First, the unfolding globalist plan to usher in the new world order through the Great Reset agenda **will be shrouded in deception**.

Second, that plan is ultimately a **spiritual one**—directed by Satan and carried out by his ministers (whether knowingly or unknowingly) here on earth.

Paul reveals this when he writes, "For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places" (Ephesians 6:12).

Understand, this is a **spiritual battle**—*not physical one*.

As such, it requires a **spiritual solution**—*not a physical, political, social, environmental, legal, or economic one*.

That solution—the only solution—is to trust in Christ, walk in faith, serve as His ambassador, and catch the escape flight (rapture) out of here before the Antichrist is revealed and the apocalyptic tribulation period begins!

To learn more about the Rapture, I highly recommend reading our article Apocalypse Now—Are We Really Already in the Tribulation?

Folks, the die has been cast and the cards dealt. God has declared the end from the beginning, and we know where this world is headed.

This ship is sinking.

Do not be deceived… The world is on a collision course with the apocalypse—*it has been since the Fall in the Garden*.

Humanity is not on verge of ushering in a glorious new golden age of "Clever Together."

Rather, its utterly wicked, depraved, and rebellious spirit is about to be judged by God… *just as it was in Noah's day*.

We are in the final moments… ***this is how it ends for a tragically deceived world.***

To learn more, we recommend you checkout our article We're Never Going Back to Pre-Covid World—This Is How It Ends.

Thank God for the two greatest words in all the bible… "***BUT GOD!***"

Things may be looking really bad… *but God!*

God is in in control. He alone is sovereign. His alone is omniscient, omnipotent, and omnipresent.

What does he think of their conspiracy?

He laughs at it:

"The kings of the earth set themselves, and the rulers take counsel together, against the Lord and against His anointed, saying, 'Let us break Their bonds in pieces, and cast away Their cords from us. He who sits in the heavens shall laugh; the Lord shall hold them in derision… The wicked plots [conspires] against the just, and gnashes at him with his teeth. The Lord laughs at him, for he sees that his day is coming… Their sword shall enter their own heart, and their bows shall be broken." (Psalm 2:2-4; 37:12-13, 15)

The world is perishing… *but God!*

God has lovingly provided you with the perfect solution… the only true solution… the solution only He could provide.

He alone has already defeated Satan at the cross… He alone has already overcome evil for us. We, in turn, overcome this world through Him, by Him, and in Him—through **faith** *alone*, in **Christ** *alone*, by **grace** *alone!*

> For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men… Because of these things the wrath of God is coming upon the sons of disobedience… Much more then, having now been justified by His blood, we shall be saved from wrath through Him… For God did not appoint us to wrath, but to obtain salvation through our Lord Jesus Christ… and to wait for His Son from heaven, whom He raised from the dead, even Jesus who delivers us from the wrath to come" (Romans 1:18; Colossians 3:6; Romans 5:9; 1 Thessalonians 5:9; 1 Thessalonians 1:10).

> Moreover, brethren, **I declare to you the gospel** which I preached to you, which also you received and in which you stand, **by which also you are saved**, if you hold fast that word which I preached to you—unless you believed in vain. For I delivered to you first of all that which I also received: **that Christ died for our sins according to the Scriptures, and that He was buried, and that He rose again the third day according to the Scriptures**." (1 Corinthians 15:1-4)

> **But God**, who is rich in mercy, because of His great love with which He loved us, even when we were dead in trespasses, **made us alive together with Christ** (by grace you have been saved), and **raised us up together**, and made us sit together in the heavenly places **in Christ Jesus**, that in the ages to come He might show the exceeding riches of His grace in His kindness toward us **in Christ Jesus. For by grace you have been saved through faith, and that not of yourselves; it is the gift of God, not of works, lest anyone should boast**." (Ephesians 2:4-9)

If you haven't already, we highly encourage you to read our articles The Ship IS Sinking… What Are YOU Going to Do as It Goes Under? and Are You Prepping to Survive or to Escape the Coming Fiery Furnace?

While our world is only going to continue to get worse, the good news is that those who place their faith in Christ will not have to face the wicked totalitarian nightmare of the Antichrist and False Prophet—the beast system that is now being prepared by the global elites with their Lock Step, Hack Attack, and Clever Together deceptions.

Jesus Christ will remove His church—His body of true believers—in advance of the coming tribulation period.

As God declared through the Apostle Paul, prior to the appearance of the Antichrist and the commencement of the beast system, Christ will return in the clouds to call His true followers (His ambassadors) home to heaven—the *Blessed Hope* (Titus 2:13) that is the **Rapture**.

Make sure you have your boarding pass my friend!

How do you get onboard Titus 213 Airlines Flight #777?

Again, you punch your ticket to board the escape flight out of here by **placing your faith in Christ** and receiving eternal life today!

Don't put it off… *today is* ***your*** *day of salvation!*

> Rest in the Lord, and wait patiently for him: Do not fret because of him who prospers in his way, because of the man who brings wicked devices [conspiracies] to pass" (Psalm 37:7).
